

Sample 2,143 Adults  
 Conducted September 6-10, 2019  
 Margin of Error ±2.2%

**2. How important are each of these issues to you personally?**

	Very	Somewhat	Not too	Not at all
Economy and jobs	57%	32%	7%	4%
Gun policy	55%	27%	11%	7%
Health care	65%	24%	7%	4%
Immigration	49%	30%	14%	7%
Climate change	45%	25%	13%	17%

**20. Which comes closest to your view about your vote for president next year?**

- I will only vote for a candidate who shares my views on climate change .....22%
- A candidate's position on climate change is one of many factors I will consider ..... 47%
- I will not be considering a candidate's position on climate change all that much .....31%

**21. Which comes closest to how you feel about the Green New Deal?**

- It's a good plan and what's needed to address climate change ..... 15%
- It has some good and bad things in it, but it could start discussions about climate change 26%
- It's a bad plan and not what's needed to address climate change .....24%
- Haven't heard enough about it ..... 35%

**22. Regardless of how you usually vote, do you think the Democratic Party or Republican Party is more likely to do a better job on the environment?**

- Democratic Party .....58%
- Republican Party ..... 42%

**23. How would rate the job Donald Trump is doing on the issue of the environment?**

- Excellent ..... 16%
- Good .....20%
- Fair .....16%
- Poor .....47%

32. Do you approve or disapprove of how the Trump Administration is handling the response to Hurricane Dorian?

Strongly approve .....	24%
Somewhat approve .....	26%
Somewhat disapprove .....	19%
Strongly disapprove .....	30%

# HOW THE POLL WAS CONDUCTED AND THE MARGIN OF ERROR CALCULATED

September 15, 2019

The CBS News survey is conducted by YouGov using a nationally representative sample of 2,143 U.S. residents interviewed online between September 6-10, 2019.

This sample was weighted according to gender, age, race, and education based on the American Community Survey, conducted by the U.S. Bureau of the Census, as well as 2016 Presidential vote and registration status. Respondents were selected from YouGov's opt-in panel to be representative of all U.S. residents. The weights range from 0.2 to 2.2, with a mean of 1 and a standard deviation of 0.3.

The *margin of error* (a 95% confidence interval) for a sample percentage  $p$  based upon the entire sample is approximately 2.2%. It is calculated using the formula

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + CV^2}{n}}$$

where CV is the coefficient of variation of the sample weights and  $n$  is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
